## Experience Summary

Bachelor's degree (4 years) in Computer Science with 4+ years of software industry experience.

3.5 years of hands-on experience in DevOps, supporting, automating, and optimizing critical deployments in AWS, leveraging configuration management, CI/CD, and DevOps processes.

An experienced team player with excellent communication skills and has the ability to work independently.

Experience of working in Agile Development and Scrum Model.

## Technical Skills

<b>AWS</b>	Terraform, IAM, VPC, S3, EC2, EKS, ECS, RDS, Route53, ELB, ASG, Cloudfront, Opensearch, AWS SSO, Secret Manager, Lambda, CloudWatch, StepFunctions, SNS, SQS, KMS, Cloudformation, ElastiCache and others
<b>Kubernetes</b>	Kubernetes, Docker, Docker Compose, Helm, Kustomize, EFK Stack, ArgoCD, External Secrets, Cert Manager
<b>CICD</b>	Github Actions, ArgoCD, Jenkins, DroneCI, CircleCI, CodeBuild, CodeDeploy, CodePipeline
<b>Languages</b>	Python, Bash, HCL, YAML
<b>Others</b>	Linux, SSO, NGINX, Certbot, New Relic, Git, OpenVpn

## Experience

### EMPG Labs — DevOps Engineer

Technologies: AWS, Kubernetes, Docker, EFK Stack, ArgoCD, Terraform, Github Actions, Jenkins, Bash, Python

- Worked on applications migrations to Docker and Kubernetes.
- Worked with different tools like ArgoCD, ALB Ingress Controller, Helm, Kustomize, External Secrets, ARC, Cert Manager and others.
- Built fault tolerant and self healing CICD framework using Github Actions and ArgoCD for faster and automated deployments.
- Built logging framework integrated with EKS by using EFK stack which enabled developers to have real time logging of applications.
- Worked on creating and maintaining AWS infrastructure using IaC tools like Terraform.
- Worked on writing bash and python scripts for automating day to day manual tasks.
- Worked on setting up AWS SSO with ArgoCD and Opensearch for easy and secure access.
- Worked on creating a real time monitoring solution for applications endpoints using Cloudwatch Alarms, Metrics and Chatbot.

## Arbisoft — DevOps Engineer

Technologies: AWS, Kubernetes, Docker, Terraform, Jenkins, Nginx, NewRelic, CircleCI, Bash, Python

- Worked on migrating their AWS infrastructure from standalone ec2 machines to auto-scaling groups based architecture.
- Worked on creating and improving CICD pipelines for faster delivery using CircleCI and AWS CodeDeploy.
- Worked on writing cloudformation scripts for creating and maintaining AWS infrastructure i.e. VPC, Launch Template, Auto-scaling Groups, Load Balancers, CloudWatch Alarms and Log Groups.
- Worked on Nginx performance tuning and reduced application response time over 70%.
- Worked on writing bash scripts for automating repeated manual tasks.
- Worked on configuring New Relic as an APM tool for better application performance insight.

## Northbay Solutions — DevOps Engineer

Technologies: AWS, IaC, S3, IAM, EC2, RDS, ECS, Config, Route53, Elascache, Codepipeline, ALB, ASG and others

- Worked on writing reusable IaC in Cloudformation and Terraform for different AWS services like EC2, RDS, S3, Cloudwatch Alarms, Auto Scaling, ALB, Launch Template, Code Deploy, Config and others.
- Worked on designing architecture for migrating an application from rackspace to ECS.
- Worked on creating ready to use EC2 instances by writing bash scripts for automating installation of different tools like Oracle 12.2 Database, AWSSCT, Python3, Pip, PostgreSQL Client and others.
- Worked on writing new and updating existing step functions for orchestration of workflows.
- Worked on setting up SFTP server on AWS using AWS Transfer Service.
- Worked on setting up NewRelic APM for real-time error analysis with on-demand diagnostic tools.

## Depository Works — Software Engineer

Technologies: .Net Core, C#, MVC, Swagger, MS SQL Server

- Worked as a .Net developer and was responsible for writing rest apis

## Education

**Punjab University College of Information and Technology — Bachelor's in Software Engineering**

(3.62 CGPA) 2015 - 2019

## Certifications

Certified Kubernetes Application Developer

AWS Certified DevOps Engineer – Professional

AWS Certified Solutions Architect – Associate

AWS Certified Developer – Associate

AWS Certified Cloud Practitioner

## Achievements

**Golden Badge in Python** programming language on Hackerrank.

**Winner** in 2 programming competitions held at UET, GCU and Comsats Lahore.
